GFleet invoices are delayed as the user departments has to ensure that all charges are for vehicles that are still used by the Municipality as there instances before where the Municipality was charged for vehicles that had already been returned to GFleet. GFleet invoice account for 25.2% of the total debt and also the amount of R200 000 which is for independent newspapers which accounts for 2.4% of the total debt. This is delayed as KZNA has not honored this debt which is supposed to have happened as per the agreement with Municipality.	The MM has instructed that Independent newspapers be paid from the entrance fees which have been since been done. Gfleet invoices have to be verified before they are processed for payments, otherwise there is a chance of paying for vehicles that have been returned to the service provider. This matter was discussed between the municipality and the service provider	Within 30 days	Of the total creditors' balance, 90.78% is 30 days and lower. Creditors older than 30 days are valued at 9.22% of the creditors' balance at 30 September 2014	Within 30 days	December 2014 Of the total creditors outstanding at 30 November 2014, 97.11% were 30 days and below, therefore, creditors older than 30 days were 2.89% which is an improvement as compared to the previous quarter.
